PERSONAL DETAILS

- Date of Birth: 7th July, 2002
- Marital Status: Single

PROFILE SUMMARY

ICT professional with certifications in ITIL Foundation, CompTIA A+, CyberOps Associate, and Cisco Cybersecurity Core. Skilled in IT support, hardware maintenance, operating systems, and customer service, with hands-on experience troubleshooting Windows, macOS, mobile devices, and networks. Strong background in cybersecurity operations, threat detection, risk assessment, and endpoint security, complemented by knowledge of virtualization, cloud computing, automation, and DevOps practices. Passionate about delivering secure, reliable, and efficient technology solutions.

PROFESSIONAL SKILLS

- Critical and creative thinking
- Strong analytical and problem-solving skills
- Ability to work under minimal supervision
- Excellent communication and teamwork

TECHNICAL SKILLS

- Network troubleshooting and IT support
- Hardware troubleshooting, repair, and maintenance
- Systems analysis and business process optimization
- Database design and implementation (MySQL)
- Operating Systems: Windows and Linux
- Cybersecurity and endpoint security management
- Enterprise IT solutions in the banking sector

EDUCATIONAL BACKGROUND

Maseno University

Bachelor of Science in Information and Communication Technology Management – 2024

Wiobiero Secondary School

Kenya Certificate of Secondary Education (KCSE)

PROFESSIONAL CERTIFICATIONS

- ITIL Foundation version 5
- Diploma in Information Technology Support
- Diploma in Cybersecurity

CERTIFICATES EARNED

- **IT Customer Support Basics** - Demonstrated foundational knowledge in help desk operations, customer service, and remote troubleshooting. I am now proficient in using industry-standard tools to assist users in resolving technical issues and can effectively communicate technical concepts to non-technical users
- **Hardware and Upgrade Support**- I have gained hands-on experience installing and upgrading components to support maintenance and perform essential and critical computer repairs.
- **Security and Connectivity Support** – Gained basic networking concepts and cybersecurity awareness, including common threats, social engineering, and data protection, preparing me for frontline IT support roles.
- **Cyber threat Management-It** has equipped me with cybersecurity policies and governance to ensure an organization complies with ethics standards and legal and regulatory frameworks. I understand how to do a network vulnerability assessment and create a risk management plan, as well as post-incident response.
- **Ethical Hacking** –developed understanding of the legal and compliance requirements and proficiency in the art of scoping, executing, reporting vulnerability assessments, and recommending mitigation strategies.
- **Computer Hardware Basics**-gained fundamental knowledge of computers and mobile devices, how they work, as well as the basic concepts and skills needed to

install components to build, repair, and upgrade personal computers and basic troubleshooting tools and techniques.

- **Network Security and Cryptography**-developed the skills to install virtual machines to create a safe environment for implementing and analyzing cybersecurity threat events, analyze network intrusion data to identify compromised hosts and vulnerabilities and apply incident response models to manage network security incidents.
- **Endpoint Security**-I have acquired broad understanding of concepts of network security, as well as operating systems and endpoint security.

WORK EXPERIENCE

Desktop Support Engineer

DTB Bank | *July 2026 – Present*

Key Responsibilities

- Provide advanced technical support for complex hardware, software, and operating system issues beyond Tier 1 and Tier 2 escalation.
- Diagnose and resolve desktop, laptop, printer, and peripheral device failures to minimize downtime.
- Install, configure, and maintain Windows operating systems and enterprise applications.
- Support user account administration, including password resets, account unlocking, and access troubleshooting using Active Directory.
- Configure and troubleshoot Microsoft 365 applications, including Outlook, Teams, OneDrive, and Office Suite.
- Deploy, image, and configure new laptops and desktops according to organizational security standards.
- Troubleshoot network connectivity issues involving LAN, Wi-Fi, VPN, TCP/IP, and DNS.
- Install, configure, and support network and local printers, scanners, and multifunction devices.
- Diagnose hardware faults and replace defective components such as RAM, SSDs/HDDs, keyboards, batteries, displays, and power adapters.
- Document technical issues, resolutions, and knowledge base articles to improve service efficiency.
- Collaborate with infrastructure, networking, cybersecurity, and application support teams to resolve enterprise-wide incidents.
- Support software installations, upgrades, patches, and security updates across user endpoints.

- Ensure compliance with IT security policies, endpoint protection standards, and banking regulatory requirements.
- Assist in user onboarding and offboarding by preparing devices, configuring accounts, and recovering IT assets.
- Monitor endpoint health and proactively identify potential hardware or software failures.
- Provide technical guidance and mentorship to Tier 1 and Tier 2 support teams when handling escalated issues.
- Support meeting room technology, video conferencing equipment, and executive user devices.
- Deliver high-quality customer support while meeting Service Level Agreements (SLAs).

Key Achievements

- Resolved complex technical incidents while maintaining high user satisfaction.
- Reduced endpoint downtime through proactive maintenance and timely troubleshooting.
- Successfully deployed and configured new user devices across multiple bank branches.
- Improved incident resolution time by documenting recurring issues and developing knowledge base articles.
- Maintained high compliance with IT security and endpoint management standards.

AMC Services Technician

August 2025– February 2025

- Managed and maintained organizational IT infrastructure including servers, desktops, and network devices.
- Monitored system performance and implemented preventive maintenance to ensure minimal downtime.
- Administered user accounts, access controls, and endpoint security policies in line with IT governance standards.
- Provided Level 1 and Level 2 technical support, troubleshooting hardware, software, and network-related issues.
- Assisted in system upgrades, data backup procedures, disaster recovery planning, and documentation of IT assets

ICT Support Technician (Reliever)- DTB BANK

February 16th, 2026- May 1st 2026

- Troubleshooting and maintaining mobile banking, ATM, internet banking, and POS systems to ensure delightful customer experience and high uptime.
- Installing, configuring, and upgrading bank applications, DBMS (Database Management Systems), and operating systems, ensuring patches are applied.
 - Acting as the first point of contact for staff, providing technical support for hardware (workstations, VOIP phones) and software (Windows, MS Office) issues.
- Creating, managing, and auditing user accounts and access profiles to sensitive systems using Active Directory.
- Supporting branch IT infrastructure, including printers, scanners, and teller machines for quick resolution within SLAs.
- Monitoring and supporting LAN/WAN and VPN connectivity at the Head Office and branch levels.
 - Proactively monitoring system trends to pre-empt system failures and ensure optimal performance.
- Liaising with third-party vendors for support when technical issues exceed in-house capabilities.

Intern – Computech Limited

February 2025 – August 2025

- Gained practical experience in banking IT operations and enterprise system management.
- Assisted in IT infrastructure support and digital banking solutions.
- Supported cybersecurity measures to ensure data security and compliance.
- Collaborated with banking teams to optimize business processes through technology.

Attachee – Tom Mboya University (ICT Department)

Previous Attachment Period

- Installed and configured computer hardware, software, and networks.
- Provided technical support and troubleshooting for ICT systems.
- Assisted in database management and e-learning system administration.
- Conducted maintenance of IT equipment and ensured system efficiency.

INTERESTS AND HOBBIES

- Coding and software development
- Cybersecurity and IT research
- Sports and outdoor activities

REFEREES
